

Politic against sexual abuse and exploitation of children.

At the Hotel Grand Teguisse Playa tourism is an activity that apart from generating undoubted benefits, such as the economic development of the area, cultural exchange and international promotion, can also cause the growth of undesirable phenomena such as the commercial sexual exploitation of children and adolescents. This is why we exercise our responsibility, taking all the measures at our disposal to avoid this type of undesirable events.

The Hotel Grand Teguisse Playa rejects these practices and:

- ✓ The Grand Teguisse Playa Hotel does not allow the registration of minors for a stay unless it is with a paternity certificate.
- ✓ We sensitize our employees to the problem, in addition to informing them about the existing laws and the risk of not reporting it.
- ✓ We comply with applicable laws and cooperate with institutions that pursue these crimes against the human being.
- ✓ We train all staff to identify suspicious activities and report them.
- ✓ We promote a policy against sexual child exploitation, with the firm commitment to protect our children and adolescents against all forms of exploitation, whether professionally or personally.
- ✓ In our facilities We do not allow the commercialization of the sexual exploitation of children and adolescents and actively pursue it.

Process:

If you suspect that a minor shows behavior that indicate some type of abuse, you should immediately seek your superior and provide detailed information of what has been heard or seen, or failing this or in case of absence, inform the competent authorities on gender violence or against child sexual abuse to 062.
